OBJECTIVE

Results-driven Software Engineer with 2+ years of experience in mobile app development, specializing in React Native. Passionate about building cross-platform, high-performance applications with clean code and intuitive UX. Seeking a full-time React Native Developer role to leverage my expertise in JavaScript/Typescript, state management, and API integration to create scalable and user-friendly mobile solutions.

SKILLS

Soft Skills: • Problem-Solving • Team Collaboration • Adaptability • Time Management • Attention to Detail • Communication • Agile/Scrum Mindset • Leadership

Technical Skills:

Frontend:

- React.js, Next.js, React Native, JavaScript (ES6+), TypeScript
- HTML5, CSS3, JSX/TSX, Tailwind CSS, Material-UI, ShadCN, React Bootstrap

Backend/APIs:

- Node.js, Express.js, MongoDB, RESTful APIs, Postman

Tools & Platforms:

- Git, GitHub, GitLab, Jira, JMeter, Trello, Render, Vercel, Netlify

Mobile Development:

- Cross-platform iOS/Android apps (React Native), Performance Optimization and Publishing App.

Languages: • English (Professional Proficiency)

- Urdu (Native)
- Pashto (Native)

EXPERIENCE

React Native/React Developer

Eastern Tech | August 2025 – Present

- Engineered and maintained robust cross-platform mobile and tablet applications using React Native and TypeScript, ensuring type safety, code quality, and exceptional responsiveness.
- Research and development (R&D) initiatives for printing solutions, successfully integrating thermal receipt printers with the mobile app and overcoming challenges with Bluetooth, USB, and network connectivity.
- Developed and optimized the user interface and navigation flow with React Navigation, ensuring a seamless and intuitive user experience across the app.
- Contributed to both front-end and back-end development for web applications using React, Next.js, Node.js, and Express.js, and managed state efficiently with Redux Toolkit.
- Designed and executed comprehensive testing strategies, including performance testing with JMeter and end-to-end testing with Cypress, to ensure application scalability and reliability.

React Native Developer

TechCreator | March 2024 – July 2025

- Develop and maintain cross-platform mobile apps (iOS/Android) using React Native, ensuring high performance and responsiveness.
- Develop cross-platform apps using React Native, leveraging React Navigation v6 for seamless routing and Redux Toolkit for state management.
- Configured CI/CD pipelines via GitHub Actions for automated Android/iOS deployments.
- Design intuitive UI/UX with Tailwind CSS, MUI, and ShadCN for seamless user experiences.
- Integrate RESTful APIs and manage state efficiently using modern React patterns.
- Collaborate with backend teams to optimize Node.js/Express.js endpoints for mobile efficiency.

- Follow Agile methodologies (Jira/Trello) to deliver features in iterative sprints.
- App Store and Play Store Deployment.

IT Lead

IM|Olympiad'24 | January 2024 – February 2024

- Led development of a responsive registration portal for KP's largest sports event (10k+ users).
- Architected frontend with Next.js and Tailwind CSS, enabling seamless mobile/desktop access.
- Automated team registrations, cutting admin workload by 60%.

PROJECTS

1. QuickTable (Mobile and Tablet POS)

- React Native • Node.js • Express.js • MongoDB
- Developed a cross-platform mobile app to streamline real-time report sharing between vehicle owners and drivers. Integrated secure backend with MongoDB and Express.js, eliminating manual communication and enhancing transparency in vehicle management.

2. TaxiRapport (Client: Swedish Company)

- React Native • Node.js • Express.js • MongoDB
- Developed a cross-platform mobile app to streamline real-time report sharing between vehicle owners and drivers. Integrated secure backend with MongoDB and Express.js, eliminating manual communication and enhancing transparency in vehicle management.

3. Contentia – Creator Marketplace App

- React Native • Redux Toolkit • React Hook Form
- Built a cross-platform mobile application where businesses can post content jobs (e.g., videos, blogs) and creators can apply or bid. Implemented a multi-step creator application form with React Hook Form and centralized job state management using Redux Toolkit. Deployed the app to TestFlight and App Store, with real-time notifications powered by Firebase.

4. EventSage – Event Management System

- React Native • Node.js • MongoDB
- Final Year Project connecting clients with event vendors. Features include vendor profiles, service booking, review systems, and calendar-based scheduling with reminders. Designed for seamless vendor-client interactions.

5. IM|Olympiad'23 & IM|Olympiad'24 Websites

- React.js • Tailwind CSS • Responsive Design
- Designed and developed responsive web portals for KP's largest university sports event. Enabled users to register and view events via an intuitive and mobile-optimized interface.

6. Additional Projects

- Developed multiple semester and personal projects using the MERN stack and modern UI libraries.

EDUCATION

Bachelor of Software Engineering, IMSciences, Peshawar

2020 – 2024

FSc (Pre-Engineering), GHSS, Maneri Payan

2017 – 2019

CERTIFICATIONS AND WORKSHOPS

I. Bytewise MERN Stack Fellowship – Bytewise Limited

Issued: December 2022

Credential ID: 033a2356-9d2a-4ac5-847b-1100263e11cc

Skills: Debugging, MERN Stack, React.js, Redux, REST APIs, Express.js, Node.js, React Native, Mobile Apps, Web Development
